

We at CACO appreciate our customers and make every attempt to keep costs down to offer you a good price. However, due to unexpected cost increases, we will not be able to maintain our current pricing in certain products.

Effective May 1st pricing will increase for the following products:

Avalon Faux Wood	8%
Cordless Fast Faux	8%
Delta Woods	8%

Additionally, on Roller Shade Products there will be a 5% increase for side and sill channels and 3% on the cordless option.

Please note price guides will not be re-printed, however the digital guide on our website will be updated to reflect the price increases by April 12th.

In the tumultuous times we find ourselves in we want to thank all of our customers for your continued business and we ask for your understanding as we work hard to continue to service you.
