#### How to expedite an order

We can often provide a faster ship date with expedited shipping for emergency situations, only if this is noted at the time the order is placed. Requested next day and second day shipping will move freight prepaid and will be added to your account at the time of invoicing.

#### How to add on or make changes to an order

In the event that you wish to add to your original order, it is possible, as long as the order is still in production. You will be required to submit changes in writing and must be signed by a person of authority indicating the items you wish to add or change. No verbal requests can be made. You will need to refer to the original P.O. number and indicate clearly the additions or changes you're requesting. Note: because add-ons may affect production time, check with customer service for any possible delays.

#### How to cancel an order

Cancellations or changes require an immediate response and can only take place up until the start of fabrication. You must first identify your P.O. number or side mark and then state the cancellation or change. Cancellations must be faxed or emailed in writing only, phone calls are not permitted. If an order has already been cut, a minimum charge of 50% will apply.

#### Should you order for the same room at different times?

This is a frequently asked question and should be addressed and explained at the point of sale. Under normal circumstances blinds, shades and verticals should be ordered for the same room at one time to prevent color deviations, as a result of dye and paint color variations from original lot to the other. If additional blinds, shades or verticals are ordered at a later time for the same room there can be a distinct color difference from the existing product to the new product. Also, window coverings that have been previously installed can have shade differentiations from newer products due to the progress of aging.

#### Questions concerning an order

Once you contact customer service you must have your P.O. number and/or side mark available.

#### **Shipping and Handling Charges**

- · Minimum order Fee: \$20 shipping and handling fee will be added to any order with 2 units or less.
- Per Unit Fee: \$9 per unit shipping and handling fee will be added for all delivery orders with more than 2 units in lieu of the minimum order charge.
- •>90" Oversized Fee: Any order with a product over 90" width (including oversized items such as valances that are not ordered spliced) will have an oversized fee of \$90 per unit up to \$180 maximum fee in addition to any minimum or per unit shipping and handling fees.
- >>104" Extended Oversized Fee: Any order with a product over 104" (including oversized items such as valances that are not ordered spliced) will ship by LTL carrier and will incur an additional \$120 extended oversized fee per order in addition to any applicable minimum order, per unit and oversized handling fees.
- Accessorial LTL Truck delivery charges such as liftgate, inside delivery, re-consignment, re-delivery, etc. will be the responsibility
  of the receiving party.

#### Credit and additional charges

Open accounts are established by submitting a CACO credit application. You will be required to list trade and bank references as well as a current sales tax id number. C.O.D. accounts are also obligated to submit a credit application. Invoices are due within 30 days of the date posted. After 30 days accounts will be charged 1.5% interest per month. CACO reserves the right not to ship to accounts with past due balances.

#### **Payment Policy**

Current payment methods accepted are check, emailed or faxed checks for ACH processing, credit cards (Mastercard, Visa, Discover) and online payments by credit card or bank draft. #### If you receive product that has been visibly damaged while in transit

Before accepting any shipments, please examine each carton carefully. If shipment shows any signs of mistreatment or damage, i.e., wheel marks, crushed or bent cartons note this on the bill of lading and have the driver sign it and note damage. Should a replacement be necessary, CACO will bill you. Your replacement invoice will enable you to file a claim with the responsible carrier. It is imperative that you count all cartons prior to signing the bill of lading; any shortages must be noted on the bill of lading with the driver's signature.

#### **Shipping discrepancies**

If the product received does not agree with your packing slip, contact a CACO customer service representative within 24 hours. Your representative will verify any action needed for a resolution and expedite any necessary replacements.

#### If you should receive a defective product

Your warranty protects you against defective products (please read your warranty for all information, disclaimers and liabilities). Should you receive a defective product, contact CACO customer service and provide detailed information including your P.O. number. If the product is not sent back for repair, you will be invoiced for a replacement and required to return back the original product to CACO for inspection. Any issue arising past 30 days from receipt of original order will be required to return product for repair.

### How to Measure

#### **Inside mount**

A. Measure the window opening at three different places and use the narrowest dimension when ordering. Be exact! The factory will make the blind slightly narrower, so it won't rub against the window casing. (See A inside mount).

B. Measure the height of the window from the top (soffit) down to the sill. NOTE: The finished blind length may have a tolerance of based on product.

Based on product, CACO will automatically make a deduction on width for measurements submitted as inside mount.

#### Outside mount

Measure exact width and height of the area to be covered. It is recommended that blinds overlap the window opening by at least 1 1/2" on each side to insure privacy and control sunlight. (See A outside mount). When installation is designed for "no sill," allow the blind to overlap the bottom of the window casing by at least 1 1/2". Blinds will be made to exact measurements given. NOTE: The finished blind length may have a tolerance of based on product.

CACO will not make any deductions for measurements submitted as outside mount.
