Tariff Update: Designer Natural Woven Woods

In early March after working with our vendor we announced a 10% tariff surcharge. Since this time more reciprocal tariffs have been imposed. We have been communicating and negotiating with our vendor to ensure the results of the tariffs have as small as possible impact on the cost of this program.

The current tariff for Chinese imports stands at 145%. Since the Designer Woven Wood program is a product shipped to your door by our vendor in China, it is directly impacted.

At this time, we and our vendor have absorbed as much of the tariff fees as possible and as a result we must announce a updated tariff surcharge of 50% for the woven wood program. This will be an additional 40% added to our current tariff surcharge for a total surcharge of 50%. Unfortunately, due to the shipping timeline, this cost will be effective for any order placed after 5:00 pm EDT today April 17th.

Please note that this surcharge will affect any quotes received before this deadline but submitted as orders after the deadline. You will be notified and new order confirmations emailed if this situation occurs.

We are sorry for the late date of this announcement; however, this is an unusual situation. We thank you for your patience and understanding during this time.
